David Simons

BSc, MBBS, DTM&H, MSc, PhD

Birgitta Sintring Fellow, Department of Ecology and Genetics, Uppsala University

david.simons@ebc.uu.se · Stockholm, Sweden · dsimons.org · GitHub · ORCID 0000-0001-9655-1656

Updated October 2026

APPOINTMENTS

Birgitta Sintring Independent Research Fellow — Sept 2026 – present
Department of Ecology and Genetics, Uppsala University, Sweden

Collaborator, SCAPES project — 2026 – present
The Pennsylvania State University, USA

External Expert — 2025 – present
European Centre for Disease Prevention and Control (ECDC), Stockholm, Sweden

Postdoctoral Scholar — 2023 – 2026
Department of Anthropology and Center for Infectious Disease Dynamics, The Pennsylvania State University, USA

Fellow-in-Residence — 2023 – present
The Verena Institute, USA

Senior Analyst, Outbreak Surveillance Team — 2021 – 2022
UK Health Security Agency, London, UK

Visiting Researcher — 2020
EcoHealth Alliance, New York, USA

Resident Doctor, Hospital for Tropical Diseases — 2019 – 2022
University College London Hospitals, London, UK

Locum Senior House Officer — 2018 – 2019
Various NHS hospitals, London, UK

Foundation Doctor — 2016 – 2018
North-East London Foundation Training School, London, UK

Research Assistant, Department of Microbiology, Tumour and Cell Biology — 2012
Karolinska Institutet, Stockholm, Sweden

Clinical Research Scientist (industrial placement) — 2008 – 2009
GlaxoSmithKline, Harlow, UK

EDUCATION

PhD, Epidemiology of Emerging Zoonotic Infectious Diseases — 2024
University of London (RVC, UCL and LSHTM), London, UK

MSc, Tropical Medicine and International Health — 2019
London School of Hygiene and Tropical Medicine, London, UK

Professional Diploma in Tropical Medicine and Hygiene (DTM&H) — 2018
London School of Hygiene and Tropical Medicine, London, UK

Membership of the Royal College of Physicians (Part 1) — 2017

Royal College of Physicians, London, UK

MBBS, Bachelor of Medicine and Bachelor of Surgery 2016
King's College London, GKT School of Medical Education, London, UK

MSc and BSc, Natural Sciences 2011
University of Leeds, Leeds, UK

RESEARCH FUNDING

Funded

Birgitta Sintring Fellowship, Principal Investigator 2026 – present
Functional connectivity and microbial transmission pathways in Fennoscandian rodents. Uppsala University.

Vetenskapsrådet, Sweden–South Korea Research Collaboration, Principal Investigator 2026 – 2027
An AI-directed One Health risk prediction framework for active learning in rodent-borne zoonoses. Uppsala University, with Chungnam National University.

Formas, CASCADE, Co-applicant and work package lead (modelling), 50% of full time 2026 – 2030
Climate-amplified spillover of vector-borne and zoonotic diseases in Sweden. Project leader Hussein Khalil, SLU. Nearly SEK 9,000,000 total.

Verena Institute, Co-Principal Investigator 2023 – 2024
Project ArHa: arenaviruses and hantaviruses. $5,000.

EcoHealth Alliance, Principal Investigator 2020
Forecasting global veterinary disease: modelling African swine fever. $5,000.

BBSRC LIDo Doctoral Training Partnership, PhD studentship 2019 – 2024
Investigating rodent ecology to understand Lassa fever spillover. £85,000.

Under review

Vetenskapsrådet Starting Grant, Principal Investigator 2026
HOST-V: Harnessing One-health Surveillance for Transforming Vaccine Trials for Epidemic Threats. SEK 6,000,000.

EDITORIAL AND PROFESSIONAL SERVICE

Academic Editor, *PLOS Neglected Tropical Diseases* Feb 2026 – present

E-learning curriculum, ECDC 2025
Co-developed an e-learning course on the environmental determinants of communicable diseases.

Peer review
26 reviews for 14 international journals; 2 book chapter reviews.

Grant review
Grant Agency of the Czech Republic.

Scientific committee, Annual Rodent-Borne Zoonotic Disease Workshop

TEACHING, MENTORING AND SUPERVISION

Thesis supervision 2019 – present
Joint or sole supervisor of 8 students on medical elective, undergraduate and postgraduate research projects at UCL, LSHTM and the Royal Veterinary College.

Postgraduate and professional lecturing 2021 – present
Invited lecturer on postgraduate courses at LSHTM (DTM&H) and UCL (Infectious Diseases MSc).

Undergraduate lecturing 2023 – present
"Spillover: The Anthropology of Emerging Infectious Diseases", The Pennsylvania State University.

Field and laboratory capacity building 2019 – present
Recruited, trained and supervised field and laboratory teams in Sierra Leone and Nigeria in rodent sampling, PCR and antibody assays (ELISA, LIPS) under BSL-3 conditions.

INVITED PRESENTATIONS

36 invited talks and posters at international conferences and institutions, including the ECOWAS Lassa Fever International Conference, ASTMH, EEID, LSHTM and the University of Idaho. Full list on request.

SKILLS

Data analysis and programming. R (tidyverse, Quarto, Shiny, Stan, sf), QGIS, ArcGIS, Git and GitHub, SQL.

Laboratory and field. Rodent trapping and handling, serological assays (ELISA), molecular diagnostics (PCR).

Clinical. Infectious diseases, tropical medicine, emergency medicine. Registered with the General Medical Council.

Languages. English (native), Swedish (learning).

PUBLICATIONS

65 papers and preprints, newest first. Full list with links at dsimons.org/publications.

65. Imirzian N, Trebski A, Johnson E, Hewitson M, **Simons D**, Harden C, Friant S, Redding D (2026). 'SiteTool': a 'Shiny' application for field site selection and evaluation. *Ecography*.

64. Simons D, Watson-Jones D, Manno D, Friant S (2026). A One Health trial design to accelerate Lassa fever vaccines. *Nature Medicine*.

63. Catchen MD, Banville F, Boutin AC, Brookson CB, Carlson CJ, Dansereau G, …, **Simons D**, et al. (2026). A protocol for biodiversity-informed wildlife disease surveillance. *PLOS Ecosystems*.

62. Simons D, Goyal R, Bangura U, Gibb R, Rushton B, Sondufu D, et al. (2026). Contact Networks of Small Mammals Highlight Potential Transmission Foci of Mammarenavirus lassaense. *The American Journal of Tropical Medicine and Hygiene*.

61. Simons D, Harden C, Imirzian N, Thompson KET, Ifebueme NM, Eziechina S, et al. (2026). Local heterogeneity in Lassa fever serology in rural Nigeria: Implications for vaccine trial site selection. *PLOS Neglected Tropical Diseases*.

60. Harden C, Eziechina S, Ifebueme NM, **Simons D**, Moses L, Redding DW, Friant S (2026). Local Knowledge of Land Use Effects on Human-Rodent Interfaces in Lassa-Endemic Nigeria. *EcoHealth*.

59. Simons D (2026). Map Liberator: An open-source tool for recovering spatial epidemiological data from static situation reports. *medRxiv*. Preprint.

58. Rivero R, **Simons D**, Damodaran L, Karegi I, Gurev S, Becker DJ, et al. (2026). Molecular and ecological determinants of effective reassortment in orthohantaviruses. *bioRxiv*. Preprint.

57. Redding DW, Albaladejo-Robles G, Nino Barreat JG, **Simons D**, Abbate JL (2026). Open ecological, genomic and digital behavioural data resolve the 2026 MV Hondius Andes virus outbreak to the southern-Andean reservoir zone. *medRxiv*. Preprint.

56. Leppin C, Brown J, Garnett C, Kale D, Okpako T, **Simons D**, Perski O (2026). Optimising supervised machine

learning algorithms predicting cigarette cravings and lapses for a smoking cessation just-in-time adaptive intervention (JITAI). *PLOS One*.

55. Friant S, **Simons D**, Harden C, Imirzian N, Bjornstad O, Gibb R, et al. (2026). Scaling Lassa Virus Dynamics within Anthropogenic Ecosystems (SCAPES) Study Protocol: a mixed-methods observational cohort study of humans, rodents, and landscapes in Nigeria. *Wellcome Open Research*.

54. Simons D (2026). The socio-economic shield limits Lassa virus spillover in urban West Africa. *Epidemiology and Infection*.

53. Simons D, Rivero R, Rickard G, Martinez-Checa A, Gordon H, Redding DW, Seifert SN (2026). Viral reservoir status in small mammals emerges as a predictable life-history trait after correcting for surveillance bias. *bioRxiv*. Preprint.

52. Schwantes CJ, Sánchez CA, Stevens T, Zimmerman R, Albery G, Becker DJ, …, **Simons D**, et al. (2025). A minimum data standard for wildlife disease research and surveillance. *Scientific Data*.

51. Simons D, Gibb R, Bangura U, Sondufu D, Lamin J, Koninga J, et al. (2025). Land use gradients drive spatial variation in Lassa fever host communities in the Eastern Province of Sierra Leone. *Journal of Animal Ecology*.

50. Simons D, Rivero R, Guiote AMC, Gordon HLM, Milne GC, Rickard G, Redding DW, Seifert SN (2025). Protocol to produce a systematic Arenavirus and Hantavirus host-pathogen database: Project ArHa. *Wellcome Open Research*.

49. Friant S, Mistrick J, Luis AD, Harden C, **Simons D**, Fichet-Calvet E, et al. (2025). Reducing the threats of rodent-borne zoonoses requires an understanding and leveraging of three key pillars: disease ecology, synanthropy, and rodentation. *The Lancet Planetary Health*.

48. Streicker DG, Griffiths ME, Antia R, Bergner L, Bowman P, de Moraes MVdS, …, **Simons D**, et al. (2024). Developing transmissible vaccines for animal infections. *Science*.
